

Crossroads is a State Licensed Residential Substance Abuse Treatment Facility with proven expertise in serving addicted men and women through the provision of high quality, successful, and affordable residential recovery programs. Results show that our combination of addiction treatment, housing, basic needs provision, 12-Step emphasis, community collaboration, and a full menu of support services provides an effective basis for long-term recovery and promotes productive and successful lives. Residents develop the skills and confidence they need to successfully transition back into the community as healthy, self-sufficient, sober individuals. Crossroads is looking for qualified applicants to work with us through internships to reduce the impact of substance abuse. Offering part/full-time, non-paid placements to all graduate and undergraduate students wanting to gain direct experience in the behavioral health field.

Internship benefits include:

- Work with a true interdisciplinary team of clinical professionals
- Licensed Supervision of Practicum hours
- Experience working with a diverse multi-cultural population
- Experience in admission assessment and admission procedures according to program policies
- Experience completing and maintaining necessary documentation
- Experience in facilitating and documenting group and individual counseling sessions
- Multiple hours, locations, and positions
