The Department of Psychology at Arizona State University invites applications for the following research positions:

**JOB #11631 - Research Professor (1.0 FTE)**
Primary responsibilities include running the Conditioned Feeding Laboratory, both animal and human. The Research Professor will direct graduate students and undergraduate workers in both animal and human research. Responsibilities also include ordering and purchasing all supplies, performing all paperwork for grades and theses, supervising and completing all compliance reporting for the IACUC and IRB. It is expected that the Assistant Research Professor writes grants to assist with funding.

Minimum qualifications for the position require a PhD in Psychology, or related field. Experience in animal and human research methods, experimental design and statistical analysis. Experience with IRB and IACUC procedures. Desired qualifications include familiarity with procedures used in Conditioned Feeding research and with the research area.

This is a fixed-term, fiscal year (July-June), benefits eligible position with no tenure implications. Subsequent renewal is possible contingent upon satisfactory performance, availability of resources, and the needs of the university. Anticipated start date September 1, 2016 (negotiable). Rank and salary will be commensurate with experience and academic credentials.

**JOB#11632 - Research Professional (1.0 FTE)**
Primary responsibilities include running the Conditioned Feeding Laboratory, both animal and human. The Research Scientist will run both animal and human subject experiments, and will supervise undergraduate students and staff in both animal and human research. Responsibilities also include ordering and purchasing all supplies, performing all paperwork for grades and theses, supervising and completing all compliance reporting for the IACUC and IRB.

Minimum qualifications for the position require graduate work in psychology or related field. Experience in animal and/or human research methods, and willingness to learn, experimental design and statistical analysis. Experience with IRB and IACUC procedures. Desired qualifications for this position include a Master’s degree in Psychology or related field, familiarity with procedures used in Conditioned Feeding research and with the research area.

This is a fixed-term, fiscal year (July-June), benefits eligible position with no tenure implications. Subsequent renewal is possible contingent upon satisfactory performance, availability of resources, and the needs of the university. Anticipated start date September 1, 2016 (negotiable). Rank and salary will be commensurate with experience and academic credentials.

**Instructions to Apply**

To apply, please submit the following in a single pdf to Ana Rosas at Ana.M.Rosas@asu.edu: a cover letter indicating the applicable JOB# and title listed above, statement indicating research interest and experience, CV, and copies of up to two publication reprints/preprints. Please also indicate in the email subject line the position above for which you would like to be considered. Initial deadline for complete applications is July 10, 2016; if not filled, applications will be reviewed every two weeks thereafter until the searches are closed. A background check is required for employment.
Arizona State University is a VEVRAA Federal Contractor and an Equal Opportunity/Affirmative Action Employer. All qualified applicants will be considered without regard to race, color, sex, religion, national origin, disability, protected veteran status, or any other basis protected by law.
